FOR IMMEDIATE RELEASE

## **Kisco Adds PDF Fill-in Forms to WebReport/i**

Saranac Lake, NY, May 24, 2012: **Kisco Information Systems** (www.kisco.com) today announces the immediate availability of version 12 of their WebReport/i software. Included with the changes in the new release is a product name change; the software was previously sold under the name WebReport/400. The name change reflects Kisco's commitment to the software on current IBM technology. With this release, WebReport/i is a full function report handling package for the IBM i platform.

With this release, WebReport/i can now include embedded Fill-In boxes on PDF forms created from IBM i spool files. An unlimited number of fields can be added, providing the report recipients with the ability to perform data entry and process completed forms.

The new release of WebReport/i also a new Report Intranet that is served directly from the IBM i platform using the built-in Apache server in IBM's i/OS. The new release includes configuration support for secure HTTPS report distribution using the Intranet feature.

The new release also includes these new features:

- Improved easy-to-use automatic FTP transmission of spool files converted and stored in the IFS
- Reports can now be sent in TIF graphical format
- A new SMTP trace feature makes it easy to diagnose email distribution problems through the IBM i/OS SMTP server
- Improved output queue security that locks down output queues on the system

WebReport/i is an e-business utility that will convert IBM i reports to PDF, Excel or formatted text and distribute them in email, by fax or as internet/intranet content. The application offers flexible configuration and ease of use, as well as the ability to embed report distribution functionality into your existing applications. Reports can be processed manually, set up to be handled automatically using monitored output queues, or embedded directly into applications using our standard IBM OS command formats.

For complete, detailed information in WebReport/i and all its features, along with case studies, screen shots and technical support announcements, please visit [www.kisco.com/webreport](http://www.kisco.com/webreport).

WebReport/i PDF, is priced at \$1,995.00 for a single partition installation on the IBM i family of systems. For companies with several systems, Kisco offers multiple-license discounts. Kisco Information Systems also offers a free 30-day evaluation of the product that can be downloaded with complete software documentation in PDF format from [www.kisco.com](http://www.kisco.com). To obtain a free evaluation on CD or by download call Kisco at (518) 897-5002 or e-mail [sales@kisco.com](mailto:sales@kisco.com).
