FOR IMMEDIATE RELEASE

Kisco Announces Release 13.12

For WebReport/i with Dropbox support

Saranac Lake, NY, April 14, 2016: **Kisco Information Systems** (www.kisco.com) today announces the immediate availability of Release 13.12 of their WebReport/i software. With this release, WebReport/i can convert reports from spool files on the IBM i platform to a variety of popular formats and then post them to Dropbox, for any Dropbox account ID that has been defined to the software. Using this new feature in WebReport/i, customers can convert reports into PDF, RTF, TXT or XLS format and share them over the web through Dropbox. This includes placing files in any folder at Dropbox. Sharing of the reports is controlled through settings in Dropbox. This feature augments the support already available in WebReport/i to share reports via Google Drive.

Also included in the new release, WebReport/i supports the Excel XLSX file format for report conversion to Excel. This allows larger reports to be processed than was previously available. The new support also allows customers to ignore report footer lines during Excel conversion processing.

When converting reports and sending via email as attachments, WebReport/i Release 13.12 includes an option to compress the attachment. The compression is created using standard "Zip" formatting. This allows smaller attachments so that larger reports can be sent to email destinations that have restrictive attachment size restrictions.

WebReport/i still contains its built-in Report Intranet hosted using the IBM i Apache server. The Report Intranet has been enhanced to allow authorized users to delete reports from their Intranet display when they are no longer needed.

WebReport/i PDF, is priced at $1,995.00 for a single partition installation on the IBM i family of systems. IBM i OS levels from 6.1 through 7.3 are supported. For companies with several systems, Kisco offers multiple-license discounts.   Kisco Information Systems also offers a free 30-day evaluation of the product that can be downloaded with complete software documentation from www.kisco.com. To obtain a free evaluation on CD or by download call Kisco at (518) 897-5002 or e-mail sales@kisco.com.
